Dear Parent/Guardian

Tassomai – online learning

I am writing to you to inform you of an exciting new home learning platform that we have purchased access to for every Year 9 - 11 student at Maiden Erlegh Chiltern Edge.

The Tassomai programme is proven to help improve progress and aid revision in Science. We have used this successfully in the past with our students in Year 9 - 11 and are pleased to be able to do so again. It is an online learning platform that can be used on a computer through their website and on a phone or tablet via the Tassomai app.

We have chosen to sign up to this platform as it is able to differentiate for each student and personalise their learning. Students will complete short regular quizzes based on a variety of science topics. The program then uses a formula that analyses the answers the pupils give, what they know, what they don't know and what they are yet to learn. Every time your child uses Tassomai it understands their needs more and designs the future tasks that they do specifically for them, therefore creating a uniquely personal learning experience. For this to really work we need to students to access this regularly, even just a few minutes a day will help them to achieve their targets. Targeted repetition completed little and often is the most effective and efficient way to implant knowledge.

We ask that you encourage your child to use this platform regularly and it can be used independently outside of tutorials and homework tasks.

Students will be introduced to the programme on Monday or Tuesday this week.

Teachers will also make themselves available to help students log onto Tassomai for this first-time during lunchbreaks Thursday and Friday of this week.

To set up their account for Tassomai, students will need to do the following:

- Visit app.tassomai.com/signup
- Enter the school's unique code which is GD4GJV9O
- Enter their details, they will need to use their school email address
- Choose the correct Science and English class from the drop-down menu

This information has also been emailed to your child's school email account, please can you get them to sign up as quickly as possible as they will need to access it for homework this week.

We are really excited to be able to sign all our students up to this and are really looking forward to seeing the progress they make. If you would like any further information please visit the Tassomai.com website or if you have any questions or problems logging in please don't hesitate to contact me at k.hardman@maidenerleghtrust.org

Kind regards

A handwritten signature in blue ink, appearing to read 'K Hardman', with a small vertical line underneath the end of the signature.

K Hardman

Head of Science
