Dear Parent/Guardian

STEM show – “Engineering - from Cradle to Grave” – Friday 11 November

Your son/daughter is invited to take part in an Engineering for Life show led by **Science made Simple** at Maiden Erlegh Chiltern Edge **on the morning of Friday 11 November**. Students will miss one regular lesson (indicated on their timetable) to attend this session. This has been approved by their teacher and Head of department.

Your son/daughter has made an excellent start to studying science at Maiden Erlegh Chiltern Edge. The aim of this session is for students to be able to appreciate the breadth of science that they could become involved in if they choose to pursue a science-based career. The show is free of charge to students. This is thanks to a grant attained by Ms Hardman from Neon – an engineering and STEM company.

The timings are as follows:

Year 8 - 9:50 – 11:00 (Period 2)

After the show at 11:00am students will make their way to lessons to get ready for the school wide 2 minutes of silence in remembrance.

BREAK

Year 7 - show starts 11.30-12.30 (Period 3)

Please address any questions to me through the school reception.

Thank you in advance for your support.

Yours sincerely

Ms K Hardman
Learning Director of Science, High achievement and Careers coordinator
