Dear Parent/Guardian

I am delighted to write to you regarding our Year 11 2023 Easter School. This event will take place between 11-13 April. There will be different sessions each day beginning at 9.30am and this time is co-ordinated to match the arrival in the village of the 25 bus at just after 9.10am. Each subject session will last for 90 minutes and there will be a short gap for refreshments between the sessions. The timetable is included below.

We have decided to run this event as we did so last year and it proved to be very beneficial to students, sharpening their revision and knowledge in the run up to the exams that begin four weeks after the holidays. When the students return to school after the Easter break there are only 18 school days until the examinations begin in earnest. Therefore, we hope these concentrated revision sessions will give students a much-needed boost to their revision and subsequent chances in the final examinations. Research has proven that one of the most effective final revision techniques is the practice of examination style questions and the revision sessions will therefore have a focus around question technique and practice.

We encourage all students to attend our Easter School as we know it will be advantageous, however it is not compulsory to attend, and parents should note that we will not be chasing any absentees.

Please indicate whether you intend to send your child to Easter School by completing this form by 9am on Thursday, 9 March.

I will write to you nearer to the Easter holiday as a reminder of these sessions and I will be launching this event with the students during this week.

Yours sincerely
