Dear Parent/Guardian

### Year 9 GCSE Options Process

The Spring term of Year 9 sees the formal launch of the GCSE Options process at Maiden Erlegh Chiltern Edge. I wanted to write to remind you of an outline the timeline.

Towards the end of the Autumn term I shared some information about the wider educational landscape with respect to Key Stage 4 qualifications which can be found [here](#). Students in Year 9 also undertook a 'Straw Poll'. This is a non-binding survey which helps me identify which subjects are *likely* to be viable for GCSE option groups and indicates whether we may have a recruitment need. I would like to extend my thanks, again, to the students for completing these surveys promptly and maturely.

To facilitate the options process there will be 2 special online areas set up. The first, for students, is the **Year 9 'Options' Google Classroom**. This will be a resource bank of information including information on the individual courses and links to external sites that can provide additional guidance for them. Many of the students have already logged into this following the Straw Poll activity in December. The second is an extension of the **Key Stage 4 Options Designated Area** on our website where there will be a host of information to support the options process, including short videos from each of the options subjects. This will go live to coincide with the Options Launch on **Thursday 25 January**.

Over the course of 3 weeks the following events will be taking place to provide students (and parents) with the relevant information and to offer students with the necessary support to make these decisions:

Event	Description	Date	Time	Location	Further information
