

You Said, We Will Response to Parent Surveys 2025

MAIDEN ERLEGH
CHILTERN EDGE

You said you wanted to have more detailed information regarding homework tasks, deadlines and completion

The roll out of Class Charts in April of this year has allowed for much greater clarity on homework tasks for both students and parents. Internally we have greater functionality to track and monitor homework quality, frequency and student engagement. Homework remains a focus area for the school for 2025/6

You said you would value suggestions on how to support your child's learning and development

We will be refreshing our [Parent Help and Support](#) page on the school website and will signpost you to new information as it is uploaded. In the interim I would encourage you to review the [Parent Bites](#) that have previously been uploaded. At Parent Information Evenings that are calendared during September we focus on how students learn and how best to support them

Some parents were unsure if their feedback was having an impact at the school

All feedback is carefully considered and where appropriate forms part of our future planning. We will continue to provide opportunities for parents to share their views including re-establishing termly parent forums and encouraging parents to book appointments to meet with key staff. Senior staff are always available on Parents' Evenings to talk through concerns with parents.
