

17 May 2019

Dear Parent/Guardian

Year 11 students have survived their first formal week of GCSEs. We congratulate them on their hard work preparing for these and for their good conduct during the exams. Of course we wish them all our best for the rest of the exam season.

We are also proud of the younger year groups who have not only had to contend with reduced space as a result of the site works, but have managed to keep quiet so as to not disturb the exams. Well done all!

Next week sees another busy week of exams, but at least there is the promise of some well needed rest and rehabilitation by the end of the week! A reminder that a few subjects are offering revision time during the half term break. Students have been told about this, the times and locations but as a reminder they are happening as follows:

Wednesday 29 May – History/Geography
Thursday 30 May – English/Maths/Science
Friday 31 May – English/Maths/Science

Students from Y7-10 were involved in County Athletics and we are pleased to say that a number have qualified for County trials later in the summer.

We are also extremely pleased to share the results from the 'Biology Challenge'. This is an international competition run by the Royal Biologists Society. Two of our entrants gained a Bronze award for which they had to score in the top 15% of students globally. A further fourteen students were 'commended' or 'highly commended' for their results. This is no small achievement and well done to all staff and students involved.

On Tuesday a small group of keen Dance students from Y8-10 were fortunate enough to experience a night at the Royal Opera House in Covent Garden, seeing the production of 'Romeo and Juliet'. For many of those who attended this was their first visit to the ballet. They behaved impeccably, as commented on by a number of members of public. Our thanks to Miss Gardner for organising and the staff who attended – despite the late return for all, it was hugely enjoyable and worthwhile.

Have a good weekend,

Moir Green
Headteacher

MATHS NEWSLETTER

UKMT Junior Maths Challenge

The Maths Department is very pleased to announce that the Maths Challenge is back at Maiden Erlegh Chiltern Edge!!

Students in Year 8 participated in the Junior Maths Challenge that took place on 30 April. We are now waiting for some hopefully very positive results to come through!

MATHS GCSE UPDATE

Year 11's have been exceptional in their conduct during the examination period and I want to wish them all the very best for the rest of their exams. They have been very conscientious and diligent and I'm confident this will be reflected in their results! Below are the dates of the mathematics examinations.

Paper 1 – Tuesday 21 May

Paper 2 – Thursday 6 June

Paper 3 – Tuesday 11 June

Maths Students of the Half Term.

Very well done to these students who have been nominated by their teachers for their outstanding efforts this half term. They will all receive 5 achievement points and a small prize.

Martha G	Year 7
Alice G	Year 8
Hibbah A	Year 9
Marissa S and Oli V.P	Year 10
Anya B	Year 11
