Curriculum Intent

The curriculum at Maiden Erlegh Chiltern Edge School is rich and carefully constructed, relevant, aspirational and accessible for all. At MECE, students at all stages are provided with opportunities that develop confidence, broaden individual skills, deepen knowledge, and advocate academic excellence to promote a love of learning by fostering the intellectual, creative, moral and spiritual development of all students and to ensure they are fully prepared for the next stage of education and the working environment.

Preparing students for excellent outcomes that meet their individual potential sits at the heart of all we do at MECE. However, the curriculum is also about providing a wealth of opportunities for students to be the very best version of themselves; articulate, thoughtful, confident citizens who are ambitious for themselves and keen to contribute to the community.

The objectives for our curriculum are

- To meet the needs of our students and keep as many options open to them as possible.
- To secure the best possible academic results for all our students.
- To ensure high quality learning over time.
- To ensure substantial knowledge and language acquisition.
- To practise and develop transferable skills development
- To prepare students for the next phase of their education or employment and life in modern Britain.
- To develop well-rounded, confident and open-minded young adults.

The delivery of our curriculum is underpinned by:

- Rigour, high standards, coherence
- A core of essential knowledge in the key subject disciplines
- Freedom for teachers to use professionalism and expertise
- Memorable experiences which put learning in a wider context
- A wide range of opportunities for personalised stretch, challenge and support
- A range of rigorous assessment opportunities which support high quality of information advice and guidance for students and parents
- A rigorous programme for personal development and character education (including SRE and preparation for life in modern Britain)
- Varied option choices for all groups of students including the most able and SEND
- Varied progression routes for all students

Foundation

All students follow a common curriculum which is designed by the curriculum leaders and their teams to best support the learning required in KS4.

Core: English (combined Language and Literature)

Maths

EBACC:

Science

Geography

History

Modern Foreign Languages (French)

Extension:

Art

Design Technology

Dance

Drama

Food Technology

Information Technology (IT)

Music

Physical Education (PE)

Religious Studies (RS)

PHSE

	Drama	1
	Dance	1
	Music	1
	PSHE	1
	Physical Education	2
	Religious Studies	1
Technology (3D design / Food)	1	
TOTAL		25

Supporting literacy and numeracy across the curriculum

Supporting the development of literacy and numeracy is the responsibility of every teacher and opportunities to support students will be taken throughout the curriculum.

Other strategies for literacy recovery are:

- On-line courses
- Small group work (usually with specialist TAs)
- Parents' information (face-to-face meetings and written information) so they can understand how they can support their child.

For those who arrive with low-average KS2 scores, monitoring in class through normal tracking and interventions will be provided if they are unable to keep up.

We will use data to diagnose precisely what students need to work on to improve (and also boost their confidence). Interventions are usually short term and highly focused. Some students only need one or two periods of interventions. A minority will need a more sustained period of support and we would look at the most appropriate curriculum for them.

Supporting Personal, Social, Moral, Spiritual and Cultural (PSMSC) education

Running through all of our curriculum, including the pastoral curriculum, are strands of Personal, Social, Moral, Spiritual and Cultural education (PSMSC) which cover themes such as:

- Emotional Wellbeing
- Citizen and Community
- Careers, Work Experience and Work Related Learning
- British Values
- Personal Health
- Risk and Safety

- Making and maintaining positive relationships
- Staying safe and healthy (including Sex and Relationships Education, Radicalisation and cyber-safety)
- Respect of self and others
- Equality and inclusion – especially tolerance, respect and understanding of people from protected groups, including those with different faiths and beliefs
- British values eg: rights and responsibilities, democracy and the rule of law

More details about our provision for PSMSC can be found on our website.

Enrichment curriculum

Maiden Erleigh Chiltern Edge offer a full extra curricula and educational visits programme.

All teachers contracted to work at Maiden Erleigh Chiltern Edge will be encouraged to offer extra-curricular activities or opportunities for students. Students will be consulted by school leaders and clubs, societies and teams will be arranged.

All trips/visits have clear learning aims and, generally, are linked to one or more curriculum areas. Where appropriate, two or more curriculum areas are bridged, which means that students “make connections” through the trip e.g. a Geography/Languages trip or a Science/Art visit.

The majority of trips/visits will be open to all students but some will be targeted at certain groups (with specific criteria):

- Career presentations and events – aimed at inspiring youngsters to consider different career choices.
- Subject-specific trips/events.
- Year-group specific trips/events.

ICT to support learning

The use of ICT is thoroughly embedded. The key principles are that:

- All teachers have access to IT in lessons as necessary - access to devices for preparation, IWBs in classrooms etc.
- All students have access to IT in lessons as necessary
- Students understand how to use IT in their learning effectively
- Students will become e-confident learners as part of the entitlement curriculum.
- Students’ safety is not compromised by their use of IT.
- Parents will understand about how to help their child use IT efficiently and safely -we will give information as part of transition but also run sessions for parents at different points.

Processes and protocols will be rigorous to ensure that its network is safe, data is secure and IT provision is robust, using appropriate hardware and software solutions.

All students and staff will sign Acceptable use Policies and this will form part of the Home School Agreement signed by parents.

SEND provision

The Inclusion team work to support pupils with Special Educational Needs, and the teaching staff working with them. In-class support from Teaching Assistants, group and individual interventions, and a range of bespoke strategies, all reinforce the Quality First Teaching experiences of our SEN pupils in lessons. We work closely with parents, outside agencies, and the school's pastoral team to identify issues, and support pupils' learning needs in and out of the classroom.

More and Exceptionally Able provision

Principles

- All students are entitled to an education that is both stimulating and challenging and which allows them to progress at a rate that is commensurate with their ability.
- Some students will be classed as Exceptionally or More able based on their KS2 results in the core subjects.
- Some students will be identified as Gifted in one or more areas of learning at some time during their school career.
- Provision for Exceptionally or More Able and Gifted students is a matter of equality of opportunity.
- Provision for Exceptionally or More Able and Gifted students will help to raise standards for all.

EAL provision

Many of our strategies to support basic literacy support EAL students. In addition, we have other principles relating specifically to them:

- We celebrate linguistic heritage and ability in all.
- All students are placed in appropriate groups for their cognitive ability
- They sit next to students with a strong command of language
- They are encouraged to use dictionaries on IT devices and/or mobile phones (as appropriate) to support their work
- They are encouraged to research concepts in the target language if that helps while they are building up their language
- On transition, we will provide visual timetables, key word lists etc. to help them as necessary.
- We teach academic literacy for the most able and EAL students
- We will work with parents to help them understand the language and culture of the school and signpost to English classes as appropriate.

How can parents support their child?

There are many ways in which parents can support their child's progress including, but not limited to:

- Attend and participate in dedicated Parents' Evenings and Year Group Information evenings
- Engage in conversations with staff regarding the progress of your child throughout the year
- Encourage your child to discuss their learning with you.
- Support the completion of homework and revision by promoting a healthy and productive learning environment at home.
- Activate and be active on the parental Show My Homework App

ART

OVERVIEW

In Art students visual, tactile and other sensory experiences to communicate ideas and meanings. They work with traditional and new media developing confidence, competence and creativity. Students will learn to reflect critically on their own and each other's work developing the ability to give specific meaningful feedback. Throughout KS3 students will learn about how designers and artists develop their ideas through the creative process. They will develop an appreciation for Art and Design and its role in the creative and cultural industries that enrich their lives.

The study of Art opens the door to a wide range of careers in the creative, engineering and manufacturing industries. You will also develop skills, such as teamwork and time management which are highly prized by employers.

ASSESSMENT OBJECTIVES

AO1 Develop ideas through investigations, demonstrating critical understanding of sources.

AO2 Refine work by exploring ideas, selecting and experimenting with appropriate media, materials, techniques and processes.

AO3 Record ideas, observations and insights relevant to intentions as work progresses.

AO4 Present a personal and meaningful response that realises intentions and demonstrates understanding of visual language.

ASSESSMENT STRUCTURE

Assessment through the designing and making process that includes verbal and creative contributions. Peer, group and teacher assessments of developmental, final and concept ideas. Final assessment at the end of each project. Student evaluation and, where relevant, client evaluation / feedback of outcomes.

GROUPINGS

Students are taught in mixed ability groups

HOMEWORK INFORMATION

Homework should take around 30 minutes. On occasion, more substantial pieces of homework are set to be completed over a longer timeframe.

Example Tasks: Collecting images; Drawing tasks; Researching Artists; Developing ideas.

EXTENDED STUDY INFORMATION

Students will be given extended writing tasks throughout the year. Students must be prepared to put time aside to complete artwork outside of lessons, in order to achieve the best possible outcomes.

ENRICHMENT OPPORTUNITIES

Extra-curricular learning will be available through KS3 Art and Technology club.

Opportunities may arise to bring in a visiting artists and to work with students from Reading University.

Opportunities to go on trips to galleries or see artists work are explored in foundation.

EQUIPMENT NEEDED

Pencil case with drawing and writing equipment, including 30cm clear ruler and a range of colouring pencils.

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

Look on SMHW every week to ensure homework is completed • Encourage LOOKING at objects, people, landscapes, really studying them and analysing the details visually with them • Discuss ideas with them ask them what they have found out about artists' work • Provide access to a camera and the internet • Offer technical help with holding, gluing, cutting up etc

USEFUL ONLINE INFORMATION/ONLINE RESOURCES

www.technologystudent.com

www.bbc.com/bitesize

**TEXTBOOKS OR REVISION GUIDES**

A wide variety of reference books are available in class.

We also encourage students to visit galleries and museums regularly to develop their knowledge of the subject.

	Year 7	Year 8	Year 9
1	<p>Formal Elements of Art. Students will study the Formal elements of Art: Colour, Line, Space, Shape, Form, Value and Texture. Looking at a range of techniques and activities including painting, collage, rubbings and drawing.</p>	<p>Food Students will look at the way different artists have tackled the subject of Food in their art work. Creating a series of studies of artists including Sarah Graham and Wayne Theobald.</p>	<p>Figure Students will study traditional figure drawing and proportion. Working in variety of media. They will look at the work of Tim Burton and Samantha Bryan creating a series of Responses.</p>
ASSESSMENT OPPORTUNITIES	<p>Mark-making and Texture Baseline Drawing assessment. The colour wheel. An introduction to how to write about Artists, their work and your own.</p>	<p>Drawing tasks. Use of different media. Artist research and Contextual links. Practical skills.</p>	<p>Drawing tasks. Use of different media. Artist research and Contextual links. Practical skills.</p>
2	<p>Formal Elements of Art. Students will continue their exploration of the formal elements looking at the work of Mark Herald and creating a 3D response to his work.</p>	<p>Food Students will develop and refine their work into creating a personal response.</p>	<p>Figure Students will study develop their figure work into a 3D figure outcome.</p>
ASSESSMENT OPPORTUNITIES	<p>Planning and development of ideas. 3D Card Bird. Evaluation.</p>	<p>Planning and development of ideas. Mixed media Response. Evaluation.</p>	<p>Planning and development of ideas. 3D wire sculpture. Evaluation.</p>
3	<p>Pattern in Art Students will study the work of Peter Randal-Page looking at his use of rules and random elements to create patterns in his 2D and 3D work.</p>	<p>Nature in Art Students will study a variety of artists including looking at the work of Angie Lewin and Andy Goldsworthy. The theme of Nature will allow exploration in many different mediums.</p>	<p>Kaws Students will study the work of the artist Kaws looking at developing a series of responses. They will explore how the artist looks at popular culture within his work.</p>
ASSESSMENT OPPORTUNITIES	<p>Drawing tasks. Use of different media. Artist research and Contextual links. Practical skills.</p>	<p>Drawing tasks. Printmaking. Artist research and Contextual links. Practical skills.</p>	<p>Drawing tasks. Use of different media. Artist research and Contextual links. Practical skills.</p>
4	<p>Pattern in Art Students will develop their work focusing on Peter Randal-Page's</p>	<p>Nature in Art Students will continue their exploration of the formal elements looking</p>	<p>Kaws Students will develop their work using primary imagery. Planning</p>

	work "Ridge and Furrow" creating a personal response.	at the work of Angie Lewin and creating a 3D Ceramic response to her work.	and developing their studies into a final painting.
ASSESSMENT OPPORTUNITIES	Planning and development of ideas. Ceramic miniature boulder. Evaluation.	Planning and development of ideas. Ceramic tile. Evaluation.	Planning and development of ideas. Identity painting. Evaluation.
5	Cityscape Students will look at the way different artists have tackled the subject of buildings in their artwork. Creating a series of studies of artists including James Rizzi.	Surreal Room Students will study a collection of different surrealist artists looking analysing and responding to their work.	Day of the Dead Students will look at the festival of Day of the Dead and associated images.
ASSESSMENT OPPORTUNITIES	Drawing tasks. Use of different media. Artist research and Contextual links. Practical skills.	Drawing tasks. One Point-Perspective Use of different media. Artist research and Contextual links. Practical skills.	Drawing tasks. Use of different media. Artist research and Contextual links. Practical skills.
6	Cityscape Students will develop and refine their work into creating a personal response.	Surreal Room Students will develop their work using collage and drawing to plan a final Surreal Room Painting.	Day of the Dead Students will develop and refine their work into creating a 3D personal response.
ASSESSMENT OPPORTUNITIES	Planning and development of ideas. Mixed media Response. Evaluation.	Planning and development of ideas. Painting of Surreal Room Evaluation.	Planning and development of ideas. Mixed Media Collage. Evaluation.

DANCE

OVERVIEW

Dance is an exciting and challenging subject, that has some-thing for every single pupil. Each term brings a new topic to the table, along with new dance styles and skills for the pupils to develop.

In this subject, pupils demonstrate use of physical and technical skills in an original and imaginative way with music. The visual and kinaesthetic learning methods can enhance pupil's awareness, motor-skills and processing. Dance can also aid those who find writing difficult, and prefer using actions to express their understanding and emotional intellect.

Dance at Chiltern Edge aims to support other subjects by correlating topics or consolidating skills in P.E, History, R.E, English and more. For example, in year 9 pupils explore the 1920's era in America including the Transatlantic Slave Trade, which brought about the well-known 'Charleston' dance style.

Be amazed at the level of confidence and self-esteem pupils can gain by watching their final performance at the end of each term!

ASSESSMENT OBJECTIVES (Applicable for year 7/8/9)

ASSESSMENT STRUCTURE

Pupils have one lesson of Dance a week; formative and summative assessment structures will therefore be formatted into the following lessons:

- Lesson 3/4 – Formative/Self-assessment. Pupils self-assess their learning and performance so far; using the criteria to help suggest improvements to reach their target grade
- Lesson 6 – Summative Assessment. Pupils perform their dance and teacher assesses according to the assessment criteria and levels. Pupils are given WWW and EBI feed-back and their awarded graded.
- Lesson 7 – Formative/Peer-assessment. Pupils aim to take on the improvements from the summative assessment; feed-back is given on their progress from class mates.

GROUPINGS

Pupils are a class of mixed ability and gender.

For groupings within classes; there are possibilities through-out the term for pupils to perform in duets, trios, quartets etc. This will be decided based on the certain needs of the pupils within the class. For example; a High ability grouping that will have different objectives and tasks compared to a middle ability group. Other terms will require groups to be a mix of abilities and gender.

HOMEWORK INFORMATION

Pupils will get written home-work around once a term, which will be either consolidating their learning from the term or researching upcoming Dance genres. This should take no more than 30 minutes. Pupils MAY be set practical home-work such as to practice certain performance pieces or choreograph material ahead of the lesson. Again, this will be no more than 30 minutes in a week.

ENRICHMENT OPPORTUNITIES

MECE pupils will have multiple opportunities through-out the year to access extra curricula and enrichment sessions.

- From September – December; pupils can get involved in the main school production, in which they may audition to perform in a dance or a speaking role.
- From January – July; pupils have the opportunity to Key-Stage 3 Dance club in lunch time and afterschool sessions. These sessions can help develop co-ordination, strength, balance and flexibility, and enhance physical ability. These sessions are for ALL key-stage pupils of mixed ability.

They will learn choreographies and prepare for productions in the Performing Arts Easter Showcase and for the Summer Dance Show

- From January – July; Pupils can audition to be a part of the Edge Company Elite; were members are selected for specific performances in EdgeFest. The styles of dance performed change, therefore half term the department re-auditions to select pupils who have a particular talent or interest in the specified dance style.

EQUIPMENT NEEDED

Pupils are required to have appropriate kit for every lesson; this includes the usual stationary (pens/pencils etc) and:

- Leggings, sports trousers or /P.E. shorts
- P.E. top or sport top (no crop tops or offensive writing)

Pupils may also opt for:

- Sports bra
- Leotard
- Knee pads
- 1litre water bottle

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

- Reminding their children bring correct kit and water to every lesson and rehearsals
- Familiarising themselves with the school's code of conduct and behaviour expectations
- Regularly checking Show my Homework
- Keeping an eye out for news/letters or emails via School Comms about rehearsals/shows/trips

<p>ASSESSMENT OPPORTUNITIES</p>	<p>EVERY TERM:</p> <ul style="list-style-type: none"> • Formative Assessment; self and peer reflection, and use of PA booklet • Summative Assessment; pupils to participate in an end of term performance – possibly to other PA groups. • For assessment data points and communication home; a currently working at grade will be used mixed with previous assessment grades and general behaviour and ethos in class. 	<p>EVERY TERM:</p> <ul style="list-style-type: none"> • Formative Assessment; self and peer reflection, and use of PA booklet • Summative Assessment; pupils to participate in an end of term performance – possibly to other PA groups • For assessment data points and communication home; a currently working at grade will be used mixed with previous assessment grades and general behaviour and ethos in class. 	<p>EVERY TERM:</p> <ul style="list-style-type: none"> • Formative Assessment; self and peer reflection, and use of PA booklet • Summative Assessment; pupils to participate in an end of term performance – possibly to other PA groups • For assessment data points and communication home; a currently working at grade will be used mixed with previous assessment grades and general behaviour and ethos in class.

DRAMA

OVERVIEW

Drama is an **important** tool for preparing students to live and work in a world that is increasingly team-orientated. **Drama** also helps students develop tolerance and empathy.

ASSESSMENT OBJECTIVES

AO1: Create and develop ideas to communicate meaning for theatrical performance.

AO2: Apply theatrical skills to realise artistic intentions in live performance.

AO3: Demonstrate knowledge and understanding of how drama and theatre is developed and performed.

AO4: Analyse and evaluate their own work and the work of others.

ASSESSMENT STRUCTURE

Students are assessed termly on the unit of work they have been studying. In the main these assessments are on practical outcomes although opportunities are interwoven in the course that allow for written work and progress to be measured.

GROUPINGS

Mixed ability

HOMEWORK INFORMATION

Homework is set at least once in the unit of work

EXTENDED STUDY INFORMATION

Students should ensure that they know lines as appropriate or otherwise prepare for lessons.

ENRICHMENT OPPORTUNITIES

A large number of students are involved in the school show which provides the opportunity for students of all ages to be involved in a large production. There are opportunities both on stage, back stage and in the sound/lighting teams.

Opportunities may arise to bring in a visiting theatre company.

EQUIPMENT NEEDED

Standard school equipment only

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

- Going to the Theatre is a valuable experience for all and especially children.
- Show an interest in the subject, help with homework (but do not do it for them), discuss artwork and go to exhibitions.
- Find out about TV programmes, theatre productions, films, exhibitions relevant to your child's learning and enjoying them together.

USEFUL ONLINE INFORMATION/ONLINE RESOURCES

National Theatre YouTube Channels – great videos about productions, acting techniques and styles.

Describe the difference between naturalism and non-naturalism without talking about the Unnatural. Experiment with and identify methods of structuring drama conventions. Make suggestions on how the work of others could be improved, using key words in their justification. 	<p><u>Play Study: Blood Brothers</u></p> <ul style="list-style-type: none"> To learn lines of key scenes To understand the key themes of the play To be able to use narration in performance To understand what a prologue is and be able to determine its use To apply a range of dramatic techniques to and performance

	students social skills through social interaction, team building and problem solving.		
ASSESSMENT OPPORTUNITIES	Assessment – Using Evacuation as a Stimulus to devise.	Assessment – Performance of key scenes	Assessment: Script performance of key scenes
4	<p><u>Introduction to Shakespeare</u> <i>Aims:</i></p> <ul style="list-style-type: none"> To develop an understanding of Shakespeare's plays and language To explore several of Shakespeare's plays, practically and actively To understand the context in which the plays were written and also their relevance today 	<p><u>Performance Style Study: Physical Theatre – Advanced</u> <i>Aims:</i></p> <ul style="list-style-type: none"> To understand the more developed techniques of Physical Theatre To learn how different vocal techniques can be used in this work To use their imaginations convey non-naturalistic Drama To analyse and dramatise a piece of poetry in a non-naturalistic style To evaluate their own and their peers' work 	<p><u>Play Study: Blood Brothers</u></p> <ul style="list-style-type: none"> To understand the story and characters of Willy Russell's <i>Blood Brothers</i> To understand how the social, cultural and historical context of the play is revealed in key scenes To explore how to play a range of characters and to one character at different stages of their life To create and perform key scenes using Physical Theatre To understand the term 'ensemble' and how to work effectively in a large group
ASSESSMENT OPPORTUNITIES	Assessment – Performance using Shakespearean language	Assessment – Performance of devised Physical Theatre demonstrating physicalisation of abstract ideas	Assessment: Whole class/cast performance.
5	<p><u>Performance Style Study: Physical Theatre</u> <i>Aims:</i></p> <ul style="list-style-type: none"> To use the body as a means of expression and communication To understand how to use the body to create drama 	<p><u>Greek Theatre – The Origins of Theatre</u> <i>Aims:</i></p> <ul style="list-style-type: none"> To learn facts about Ancient Greek theatre and amphitheatres. Perform scenes using a choral speaking. 	<p><u>Devising Based on Theatre in Education and Verbatim Theatre</u></p> <ul style="list-style-type: none"> Devising Based on Theatre in Education and Verbatim Theatre To understand the term devising and what a stimulus can be.

	<ul style="list-style-type: none"> To apply the success criteria of physical theatre to their work. 	<ul style="list-style-type: none"> Become familiar with the plot of Oedipus. Make use of safe stage combat. Make use of the explorative strategy forum theatre. 	<ul style="list-style-type: none"> To use a variety of stimuli to form the basis of thoughtful and thought-provoking drama. To work as an ensemble to create theatre which tackle sensitive issues in a mature way. To consider how many different elements are used to create a piece of theatre, including the technical side of theatre. To understand and to apply semiotics and proxemics to their work.
ASSESSMENT OPPORTUNITIES	Assessment – Using a poem as stimulus to create performance in style of Physical Theatre	Assessment – Application of Performance Style to performance	Assessment: Creating Performances based on Body Image awareness
6	<p><u>Performance Style Study: Melodrama</u></p> <p><i>Aims:</i></p> <ul style="list-style-type: none"> To introduce the students to the genre of melodrama. To allow the students to explore and develop ideas through the medium of performance. To introduce the students to use of script and the dramatic interpretation of the spoken word. To refine the students use of voice, movement and facial expression as a form of communication with an audience. 	<p><u>Devising based on Human Rights</u></p> <p><i>Aims:</i></p> <ul style="list-style-type: none"> To understand that we all have rights as human beings and could begin to explore this practically through drama To understand that we all have human rights and civil rights as citizens and could explore this practically through drama, beginning to apply this to performance. To understand that we all have human rights and civil rights and could explore this practically through drama, and apply this learning 	<p><u>Introduction to GCSE Drama – Practitioner exploration of Stanislavski and Brecht.</u></p> <ul style="list-style-type: none"> To know about the basic features of Brecht's Theatre To be able to demonstrate some features of Epic Theatre such as narration or alienation To be able to: demonstrate understanding that Epic Theatre is didactic, socio-political and focuses upon reason not emotion To understand who Konstantin Stanislavski was and his methods. To understand the basics of Stanislavski

	<ul style="list-style-type: none"> To encourage group work and further the students social skills through social interaction, team building and problem solving. 	confidently to a performance.	<ul style="list-style-type: none"> To be able to explain his methods and use them in performance To use Stanislavski's methods to improve character.
ASSESSMENT OPPORTUNITIES	Assessment – Using a script The Murder in the Red Barn	Assessment – Performance highlighting Amnesty campaign	Assessment: Monologues created by application of Stanislavkian Methods and group performance of political theatre applying Brechtian techniques.

ENGLISH

OVERVIEW

The English department aims to foster a real love for the creative aspects of English as well as develop the analytical skills pupils need in order to attain to their potential. English lessons deliver the national curriculum. Lessons are differentiated to meet individual needs, ensuring that all students are able to access the curriculum. Visual learning is embedded into the curriculum to enable students to understand, remember and apply key concepts. All students are entered for external accreditation so that on leaving Maiden Erleigh Chiltern Edge they have an English qualification. The department offers the AQA English Language GCSE, English Literature GCSE and Functional Skills.

English is essential for all careers. Being able to read with understanding, write clearly and accurately and communicate verbally with colleagues will be part of any job. Careers asking for English as a possible, specific qualification include teaching, publishing, journalism, copywriting, lexicography or writing. English would also be a useful qualification for those who want to be a librarian, or work in advertising, administration, the film industry, the media, marketing, public relations or social media/ web writing.

ASSESSMENT OBJECTIVES

Reading

A01: Identify and interpret explicit and implicit information and ideas.

Select and synthesise evidence from different texts.

A02: Explain, comment on and analyse how writers use language and structure to achieve effects and influence readers, using relevant subject terminology to support their views.

A03: Compare writers' ideas and perspectives, as well as how these are conveyed across two or more texts.

A04: Evaluate texts critically and support this with appropriate textual references.

Writing

A05: Communicate clearly, effectively and imaginatively, selecting and adapting tone, style and register for different forms, purposes and audiences. Organise information and ideas, using structural and grammatical features to support coherence and cohesion of texts.

A06: Candidates must use a range of vocabulary and sentence structures for clarity, purpose and effect, with accurate spelling and punctuation.

Spoken Language

A07: Demonstrate presentation skills in a formal setting.

A08: Listen and respond appropriately to spoken language, including to questions and feedback to presentations.

A09: Use spoken Standard English effectively in speeches and presentations.

ASSESSMENT STRUCTURE

Students will take a unit assessment each half term to ascertain levels of progression and to set next steps. Ongoing formative teacher assessment /AfL
 Periodic progress checks and assessments against the end of year outcomes or end of Key Stage outcomes.

GROUPINGS

Mixed ability in year 7. Ability Set in Years 8 & 9

HOMEWORK INFORMATION

Set 1 x per week Y7 / Y8 30 mins Y9 upto 45 minutes

EXTENDED STUDY INFORMATION:

Private reading – students should try to read a wide range of fiction and non-fiction. Reading lists are available via the English Department.

Spellings – students will sometimes be given spellings to learn. They should also endeavour to learn the spelling mistakes highlighted by teachers in marked written work.

Guide them towards extra punctuation and grammar practice on

www.bbc.co.uk/skillswise/words/grammar BBC Bitesize:

<http://www.bbc.co.uk/education/subjects/z3kw2hv> (English Language) BBC Bitesize:

<http://www.bbc.co.uk/education/subjects/zykdmp3> (English Literature) BBC Bitesize:

ENRICHMENT OPPORTUNITIES

Students will have the opportunity to partake in creative writing competitions for county competitions. Moreover, external speakers and authors of novels we will be studying, will also be coming in to work with the young people. To aid teaching and learning, trips to the theatre will be arranged throughout the year. Book clubs will also be available for avid readers.

EQUIPMENT NEEDED

Black pen, green pen, ruler, pencil, eraser

The Oxford English Mini Dictionary & Thesaurus (are useful to have available at home)

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

- Encourage wider reading
- Help with learning spellings
- Regularly check Show My Homework and discuss classwork and homework
- Visit museums, galleries, places of interest and encourage your child's curiosity / support them in developing a sophisticated vocabulary

USEFUL ONLINE INFORMATION/ONLINE RESOURCES:

FOOD PREPARATION AND NUTRITION

OVERVIEW

KS3 covers both food science and food practical, giving students an understanding of food preparation, good hygiene practices and nutrition. It teaches students how to prepare a range of healthy meals, and practical skills that will

The course supports careers within the Food industry, in Sport and Nutrition, and Health and Social Care.

ASSESSMENT OBJECTIVES

Students will be assessed on their knowledge and skills in:

- Food preparation and Cooking (practical skills and H&S)
- Nutrition
- Food Commodities

ASSESSMENT STRUCTURE, both practical, written and end of module testing.

Year 7: Healthy Eating

Year 8: World Food

Year 9: Ethical Issues in Food

GROUPINGS

Mixed groups of around 18 students.

HOMEWORK INFORMATION

Ingredient preparation, recipe research, home learning and cooking projects and evaluations.

Homework should take approximately 30 minutes a week.

EXTENDED STUDY INFORMATION

Students are encouraged to research recipe variations, watch cookery programmes and be aware of news articles that are related to the food industry

ENRICHMENT OPPORTUNITIES

Trips to farms, visiting chefs.

EQUIPMENT NEEDED

Ingredients required and containers to take home.

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

Involvement in planning and assisting with food preparation at home, shopping for ingredients. Visits to restaurants, looking at food labels. Watching/ reading food cooking programmes and articles.

USEFUL ONLINE INFORMATION/ONLINE RESOURCES

FRENCH

OVERVIEW

More than 220 million people speak French on all the five continents. French is a major language of international communication. It is the second most widely taught language after English and the sixth most widely spoken language in the world.

France is the world's top tourist destination and attracts more than 79,5 million visitors a year. The ability to speak French makes it so much more enjoyable to visit France and other French speaking countries around the world. The study of a language is often considered by employers as a rigorous and useful pursuit and can be a real career asset, particularly in the world of tourism, communication and business.

ASSESSMENT OBJECTIVES

We aim to assess all 4 skills in listening/ speaking/ reading and writing. Students need to demonstrate they can understand key points in extracts of spoken and written French and communicate on GCSE sub themes such as Me, myself and Friends/ Home, Town, neighbourhood and region/ Free time activities/ My studies.

ASSESSMENT STRUCTURE

Students will be assessed each half term in 2-4 skills (listening, speaking, reading and writing) on topics covered. There will be a mix of assessments tasks linked to new GCSE specifications such as questions and answers, match up exercises, describing a picture, role plays, translations and structured writing.

GROUPINGS

Students are taught in mixed ability groups in Years 7,8 and 9

HOMEWORK INFORMATION

Homework is set once a week on Show my Homework and should take 30 min to complete. Typical homework tasks will include:

- Rote learning of vocabulary and grammar
- Vocabulary revision and practice using online websites
- Extended pieces of writing
- Creative tasks
- Translations
- Grammar exercises
- Watching short videos and answering questions
- Reading a text and answering questions

EXTENDED STUDY INFORMATION

Use vocabulary revision and practice websites. -

- <https://www.memrise.com/courses/english/french/>
- <https://quizlet.com/login>
- www.languagesonline.org.uk
- <https://fr.duolingo.com/>
- www.slownewsfrench.com

Read about French / Francophone culture using English or French websites.

Watch suitable French films or cartoons.

Read French children's books and fairytales

Research famous French-speaking people who have same interest as student eg famous mountain-biker.

ENRICHMENT OPPORTUNITIES

MFL club Friday lunchtimes primarily for Year 7.

MFL clinic and catch up to support learners at lunchtime.

EQUIPMENT NEEDED

Pens, pencils, highlighters, rough book

Bilingual dictionary is recommended

**HOW CAN PARENTS SUPPORT THEIR CHILDREN?**

- Test them on the meanings of French words when they have to learn vocab or grammar.
- Help them to manage their time when learning vocabulary: a little and often is the key.
- Help them develop learning techniques: look, cover, write, check is the method used in primary school. How can this method be adapted to help with the learning of a new language?
- If they are doing reading get them to summarise what the text/extract is about in English.
- Ask them what certain words mean – how spontaneously can they answer you?
- Ask them to present on one of the topics above and record them.
- Look through books and ask questions like, do you know how to correct this error? How did you improve this? How could you improve it further? What do you need to produce to access the next grade?

ASSESSMENT OPPORTUNITIES	Vocabulary tests. Writing and end of year vocabulary test.	Speaking – peer assessed. End of year vocabulary test.	FINAL EXAMINATION

GEOGRAPHY

OVERVIEW

“Geography is the subject which holds the key to the future” Michael Palin

The study of Geography stimulates an interest in and a sense of wonder about places, helping young people make sense of a complex and dynamically changing world. Geography lessons at Maiden Erlegh Chiltern Edge will equip students with knowledge about diverse places, people, resources and natural environments, together with a deep understanding of the Earth’s key physical and human processes. Students will be encouraged to question the world around them, become more independent learners through fieldwork, and develop well-balanced opinions rooted in current and contemporary issues.

Where will Geography take you?

Geography students work in a wide range of jobs (travel and tourism, retail, planning, education...) and many employers value the knowledge and skills that studying geography can provide, be it knowing how the world works, planning research and report writing, working in a team, using new technologies and communication skills.

ASSESSMENT STRUCTURE

Assessments will be carried out throughout the year e.g. end of unit tests, extended pieces of writing, vocabulary tests and interpretations of maps and photographs

Student will be required to complete a DIRT activity based on teacher feedback once a term.

GROUPINGS

Geography at KS3 is taught in mixed ability groups. One hour per week

HOMEWORK INFORMATION

Students are set a variety of homework activities to help consolidate and reinforce learning and to allow students to practise geographical skills.

EXTENDED STUDY INFORMATION

Geography is topical, so encouraging your child to watch the news and read newspapers will help inform them of the issues facing the world. Geography is full of opinions, so debating controversial topics is a way training the Geographer within! Download Google Earth to look at the location of places you have travelled to, find unknown places in the news, or locate places being studied in class. It is a great way to explore places. Using an Ordnance Survey map, ask your child to locate their home and the homes of others on the map.. You could also ask your child to plan a family walk or outing using the map.

ENRICHMENT OPPORTUNITIES

For KS3 students there will be an opportunity to attend a club and participate in a variety of activities, for example, weather watching, geocaching and orienteering.

EQUIPMENT NEEDED

A pencil, ruler and writing pens (green for ‘improvement work’) are essential in every Geography lesson. It is also useful to have the following items: sharpener, eraser, colouring pencils, glue stick, calculator, scissors, and highlighter.

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

See extended study information. Also, access Show My Homework (SMH) where homework, writing frames and revision checklists are uploaded.

TERM	COURSE CONTENT: Knowledge and skills		
	Year 7	Year 8	Year 9
1	Baseline test Fantastic Places What is Geography? (mapping skills and landscapes)	Active Earth What is a natural hazard? Why do some natural hazards cause more damage than others?	Violent world What is a crime? Where does crime occur?
ASSESSMENT OPPORTUNITIES	End of unit assessment on map skills	GCSE style assessment on the structure of the earth and plate tectonics	End of unit topic assessment with GCSE style questions
2	Exploring the UK What does the UK mean to me? Where do people live?	Population Can the world cope?	Weather Hazards: What is a tropical storm? How do tropical storms form?
ASSESSMENT OPPORTUNITIES	Annotated sketch map	Skills – scatter graph/population pyramids	GCSE style questions
3	Exploring the UK Why does it rain? What is microclimate? Fieldwork opportunities: school site investigation	Africa: A continent of contrasts What is an ecosystem? Is tourism a good thing?	Urbanisation What is a megacity? What are the challenges and opportunities of living in Rio de Janeiro?
ASSESSMENT OPPORTUNITIES	GCSE style questions based around describing maps and location of UK towns/cities and physical features	Extended writing/GCSE style question: Impact/management of tourism in Kenya	GCSE style questions
4	Environmental issues What is climate change? What is the plastic problem?	The changing coastline How do waves form? What are the main physical processes affecting our coastline?	The Living World Where are tropical rainforests located? What are the threats to tropical rainforests?

			Can tropical rainforests be managed more sustainably?
ASSESSMENT OPPORTUNITIES		End of unit assessment: knowledge of places and key natural processes/coastal features	GCSE style assessment
5	Adventure Landscapes How is limestone formed?	The Middle East Should people migrate to Dubai?	The Living World What are cold environments? What are the opportunities and challenges for development in a cold environment?
ASSESSMENT OPPORTUNITIES	End of unit assessment: knowledge and understanding of key terminology	Extended writing task: Dubai	GCSE style assessment
6	School environment enquiry: What is the school environment like? Fieldwork techniques based around the school site	Mapping Festivals What makes a good site for a festival? What are the social, economic and environmental impacts of music festivals?	Issue evaluation DME Resources - water
ASSESSMENT OPPORTUNITIES	Data analysis and evaluation of fieldwork techniques	Evaluation of 4 festival sites Extended writing task	GCSE style assessment

HISTORY

OVERVIEW

History is a fascinating subject which encourages students to consider the role of individuals, events and key themes and their contributions to our past. It offers parallels with our society today, helping us to explain current events and issues. Everyone has a connection with the past; it is about discovering which aspect of the past unlocks an individual's interest.

ASSESSMENT OBJECTIVES

- know and understand the history of these islands as a coherent, chronological narrative, from the earliest times to the present day: how people's lives have shaped this nation and how Britain has influenced and been influenced by the wider world
- know and understand significant aspects of the history of the wider world: the nature of ancient civilisations; the expansion and dissolution of empires; characteristic features of past non-European societies; achievements and follies of mankind
- gain and deploy a historically grounded understanding of abstract terms such as 'empire', 'civilisation', 'parliament' and 'peasantry'
- understand historical concepts such as continuity and change, cause and consequence, similarity, difference and significance, and use them to make connections, draw contrasts, analyse trends, frame historically valid questions and create their own structured accounts, including written narratives and analyses
- understand the methods of historical enquiry, including how evidence is used rigorously to make historical claims, and discern how and why contrasting arguments and interpretations of the past have been constructed

gain historical perspective by placing their growing knowledge into different contexts: understanding the connections between local, regional, national and international history; between cultural, economic, military, political, religious and social history; and between short- and long-term timescales

ASSESSMENT STRUCTURE

Assessments will be carried out throughout the year e.g. end of unit tests, extended pieces of writing and source analysis

Students will complete one DIRT activity based on teacher feedback on one piece of work per term

GROUPINGS

History at KS3 is taught in mixed ability groups. One hour per week

HOMEWORK INFORMATION

Homework is set once a fortnight

EXTENDED STUDY INFORMATION

We encourage students to discuss ideas that they have studied in lesson time at home. We would also encourage you to ask your son or daughter about what they have studied in History as this will enrich the discursive element of the subject. Additionally, all students should try to watch or access international, national and local news in some form at least once a week to help them develop an understanding of the historical issues that influence the way we live our lives today. We may also suggest relevant films and TV programmes to watch during each topic.

ENRICHMENT OPPORTUNITIES

For KS3 students there will be an opportunity to attend a club and participate in a variety of activities.

EQUIPMENT NEEDED

A pencil, ruler and writing pens (green for 'improvement work') are essential in every History lesson. It is also useful to have the following items: sharpener, eraser, colouring pencils, glue stick, scissors, and highlighter.

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

See extended study information.

MATHEMATICS

OVERVIEW

Mathematics is a creative and highly interconnected discipline that has been developed over centuries, providing the solution to some of history's most intriguing problems. It is essential to everyday life, critical to science, technology and engineering, and necessary for financial literacy and most forms of employment. A high-quality mathematics education therefore provides a foundation for understanding the world, the ability to reason mathematically, an appreciation of the beauty and power of mathematics, and a sense of enjoyment and curiosity about the subject.

Mathematics is an interconnected subject in which pupils need to be able to move fluently between representations of mathematical ideas. The programmes of study are, by necessity, organised into apparently distinct domains, but pupils should make rich connections across mathematical ideas to develop fluency, mathematical reasoning and competence in solving increasingly sophisticated problems.

ASSESSMENT OBJECTIVES

The teaching is structured such that we don't teach to the examination, we simply teach mathematics – and exam success is a consequence.

ASSESSMENT STRUCTURE

Students are formally assessed four times over the course of the year – twice in the Autumn term, and once each in the Spring and Summer terms. The assessments are just before the end of the first half term and then before the end of each term.

All students sit one non calculator paper and one calculator paper.

GROUPINGS

Year 7 - Maths is taught in mixed ability form groups for the first term, and then thereafter they are taught in sets most suitable to their ability. At the end of year 7, sets are formally reviewed, and any appropriate changes are made effective as of the start of year 8.

Year 8 – Students continue to be taught in sets most suitable to their ability. And as with year 7, sets are formally reviewed at the end of year 8, with any changes effective as of the start of year 9.

Minor adjustments to sets, if warranted, may happen during the school year when conducting an informal review. However, too many set changes can be disruptive and sometimes counterproductive, and as such are only done in exceptional circumstances.

HOMEWORK INFORMATION

Students should expect to receive one piece of mathematics homework per week which should last approximately 30 minutes each. Homework tasks are set at the discretion of the class teacher and will be set based on the progress within a topic. Tasks can range from question and answer based homework that consolidates prior classroom learning, activities set on www.mymaths.co.uk, investigations, improvement work in response to feedback, end of topic review tasks, or / and revision for upcoming assessments.

EXTENDED STUDY INFORMATION

Often the most valuable, and yet often underutilised resource for students is their exercise book. Students should be actively encouraged to review their work on a regular basis, and especially when an assessment is approaching as students will often be provided with a revision list which will outline all topics that could be assessed.

Additionally, the school subscribes to mymaths - www.mymaths.co.uk . All students will be given a personal login for this website and this resource can be used to review learning done in class and also to complete online homework which a teacher can set on topics recently covered.

For a more open-ended selection of mathematics problems the nrich website is useful - <http://nrich.maths.org>. Students should click onto the 'Lower Secondary Student Home' section where they will find a selection of problems suitable for a variety of levels and abilities. There is a live problems

section titled 'Open for Solution' which provides opportunities for students to submit their own solution to a regularly updated mathematical problem. The website publishes the best solutions each month, referencing and recognising the achievement of the students who submitted these!

ENRICHMENT OPPORTUNITIES

Students in both year 7 and 8 will have the opportunity to be entered for the UKMT (United Kingdom Mathematics Trust) Junior Maths Challenge which takes place in April. The maths challenge will allow students to solve problems and test themselves nationally against the ablest mathematicians.

Additionally, throughout the year, there will be opportunities for all students to use and apply their mathematical knowledge and skills through extended "rich tasks" that will help them to develop their functional skills. It is imperative that all students know how to apply the skills gained in lessons to solve real life problems. And this is especially important as the new GCSE specification places an even greater emphasis on the practical application of learned mathematics.

EQUIPMENT NEEDED

In addition to the student's exercise book issued at the start of the academic year, the following pieces of equipment are essential in every mathematics lesson:

Blue / black pens, green pen, pencils, ruler, eraser, sharpener, glue stick, highlighters for marking (pink, green and yellow) and a scientific calculator (preferably the CASIO fx-83GT / plus or CASIO fx-85GT / Plus). These items, including the calculators are available in most supermarkets, stationary shops and online.

Geometry set to include protractor and compass for some lessons.

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

Encourage a positive and "can do" attitude towards maths

Ensure students have the correct equipment required for maths lessons

Help with functional skills – get your child to relate maths to real life situations, e.g. reading bus and train timetables, estimating shopping bills and finding best buys in shops

Help your child to read from an analogue clock and promptly recall times tables.

This will enable students to consolidate their knowledge of key skills that are essential to the GCSE program.
3	Probability and Statistics : Averages – Pie Charts – Stem and Leaf – Two Way Tables – Coordinates – Distance Tables – Conversion Graphs – Distance Time Graphs – Introduction to Probability.	Probability and Statistics : Scatter Graphs – Time Series – Frequency Polygons – Venn Diagrams – Mutually Exclusive Events – The “or” and “and” rule for probability.
ASSESSMENT OPPORTUNITIES	Topic Based Tests for this Half Termly Assessment.	Topic Based Tests for this Half Termly Assessment.
4	Ratio, Proportion and Rates of Change : Introduction to ratio and proportion – Using Unitary Methods – Proportional Division.	Ratio, Proportion and Rates of Change : Direct and Inverse Proportion – Relate Ratios to Fractions and to Linear Functions Number : Bounds – Standard Form – Percentages – Reverse Percentage – Simple Interest.
ASSESSMENT OPPORTUNITIES	Mixture of exam questions from all 6 domain areas of the National Curriculum. This will enable students to consolidate their knowledge of key skills that are essential to the GCSE program.	Mixture of exam questions from all 6 domain areas of the National Curriculum. This will enable students to consolidate their knowledge of key skills that are essential to the GCSE program.
5	Number : Factors and Multiples – Prime Factors – Ordering Decimals - Fractions, Decimals and Percentages.	Algebra : Sequence and nth term – Recognise, name and plot straight line graphs parallel to the axes – Recognise cubic, inverse, exponential and circular graphs – Plot Linear and Quadratic Graphs – Introduction to $y = mx + c$.
ASSESSMENT OPPORTUNITIES	Topic Based Tests for this Half Termly Assessment.	Topic Based Tests for this Half Termly Assessment.

6	Geometry and Measures : Similar Shapes – Congruent Shapes – Transformations (Reflection, Rotation, Enlargement and Translation).	Geometry and Measures : Exterior and Interior Angles – Pythagoras' Theorem – Congruent Triangles – Similar Triangles – Construction – Scale Drawings and Maps
ASSESSMENT OPPORTUNITIES	Mixture of exam questions from all 6 domain areas of the National Curriculum. This will enable students to consolidate their knowledge of key skills that are essential to the GCSE program.	Mixture of exam questions from all 6 domain areas of the National Curriculum. This will enable students to consolidate their knowledge of key skills that are essential to the GCSE program.

MUSIC

OVERVIEW

Music lessons at MECE are designed to enable all students to engage in practical music making activities encouraging their creativity and performing skills. Studying music allows students to improve their co-ordination skills, memory, team work, self-discipline and gives them an opportunity to express themselves.

ASSESSMENT OBJECTIVES

- AO 1 – Perform with technical control, expression and interpretation
- AO 2 – Compose and develop musical ideas with technical control and coherence
- AO 3 – Demonstrate and apply musical knowledge
- AO 4 - Use appraising skills to make evaluative and critical judgements about music

ASSESSMENT STRUCTURE

Students complete a baseline assessment at the start of year 7 to assess their performing, composing and listening skills which is used to help create their flight path. Students are then assessed at the end of every topic which cover the four assessment objectives across the year.

GROUPINGS

Mixed Ability

HOMEWORK INFORMATION

Termly music homework which will evolve around the term's topic.

EXTENDED STUDY INFORMATION

Listening to a wide variety of music outside the classroom to broaden experience and understanding.

ENRICHMENT OPPORTUNITIES

Workshops, peripatetic music lessons, pit band for School Production, EdgeFest, Performing Arts Showcase. There are also opportunities in the year to join enrichment trips to the theatre and concert hall.

EQUIPMENT NEEDED

Regular school equipment

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

1	Programme Music	Ostinato	Film Music
ASSESSMENT OPPORTUNITIES	<p>Performance- Expression and Interpretation. Pupils will be able to perform their music with the correct dynamic, tempo and emotion they have composed their music to.</p> <p>Composition- Developing Musical Ideas.</p>	<p>Performance of 'Hung Chai' Performance- Accuracy and Fluency. Playing the melody and ostinato correctly, and in time. Technical control- Playing the music with the correct instrumental technique. Playing with the right hand position, using correct beater technique and use effective strumming pattern.</p>	<p>Composition- Developing Musical ideas. Composing music using the elements to reflect a silent movie.</p> <p>Performance- Expression and interpretation. Ensuring the right dynamics/tempo and expression in their music to represent the nature of the film.</p> <p>Listening and Appraising- Understanding about leitmotifs, diegetic and non-diegetic music.</p>
2	Vocal studies	Ostinato compositions	Classical Music
ASSESSMENT OPPORTUNITIES	<p>Performance: Technique and technical control- singing with correct posture, breathing, diction and projection.</p> <p>Expression and Interpretation- Singing with dynamic, interpretation of the lyrics, correct tempo and expression.</p> <p>Accuracy and fluency- Singing the right notes, correct rhythm with no gaps unless intentional.</p>	<p>Composition- Developing musical ideas. Students to compose their own melodies and ostinato's.</p> <p>Demonstrate technical control- Composing their ostinato composition with the pentatonic scale, related to Chinese music.</p> <p>Musical Coherence- Composing in a Binary or Ternary form, and composing melodies using the question and answer technique.</p>	<p>Performance of Beethoven's 'Ode to Joy' Performance- Expression and interpretation. Playing the correct dynamic and with correct tempo, and emotion to fit the mood of the piece.</p> <p>Technical control- Instrumental technique. Playing the instruments with the correct techniques.</p> <p>Accuracy and Fluency- Playing the right notes, rhythm together as an ensemble.</p> <p>Listening and Appraising. Understanding features of the classical period, and a history about Beethoven.</p>
3	African Drumming	Choral Music	Theory
ASSESSMENT OPPORTUNITIES	<p>Performance: Technique and technical control- Playing the drums with correct beater and hand technique.</p> <p>Accuracy and Fluency- Playing the right rhythms and following the right structure.</p> <p>Composition- Developing Musical ideas. Composing a</p>	<p>Performance- Technique and technical control. Singing with correct techniques such as diction, projection.</p> <p>Accuracy and Fluency- Singing the right notes.</p> <p>Listening and Appraising- Understanding where choral music is mostly sang and</p>	<p>Listening and Appraising Understanding the musical elements through theory, listening talks and aural activities.</p>

	<p>'solo' section using the musical element of rhythm.</p> <p><u>Listening and Appraising-</u> Understanding the structure for this style of music Knowing the context and background of the music- Knowing where African music came from, what instruments are used.</p>	<p>how choral music has progress throughout the history of music.</p>	
4	Melody and accompaniment	Instrumental skills	Songwriting
ASSESSMENT OPPORTUNITIES	<p><u>Performance- Technique and technical control.</u> Playing the chords with the correct hand position.</p> <p><u>Accuracy and fluency-</u> Ensuring the chords are played correctly, in time with the melody and with fluent transitions.</p> <p><u>Composition- Developing Musical Ideas</u> Students to compose their own composition using chords of their choice, and a melody to fit with the correct accompaniment.</p>	<p><u>Performance- Technique and technical control.</u> Learning instrumental skills on various different instruments. For example, how to hold a guitar to how to play rhythms on the drums, to where to place your hands etc.</p>	<p><u>Performance- Expression and Interpretation.</u> Performing their song with the emotion is should convey through dynamics, tempo, phrasing.</p> <p><u>Technique-</u> Playing the instrument the way that group/soloist has composed it to be played. Eg strumming patterns, chord rhythms etc.</p> <p><u>Composition- Developing musical ideas.</u> Pupils will understand the process of composing, and how to develop their ideas musically in terms of chord progressions, melody writing.</p> <p><u>Musical Coherence-</u> To compose in a popular song structure including verses, choruses, middle 8's, introduction and endings.</p>
5	Band skills	Musical futures	Musical futures
ASSESSMENT OPPORTUNITIES	<p><u>Performance- Technique and technical control.</u> Playing the instrument they have chosen with correct technique.</p>	<p><u>Performance- Technique and technical control.</u> Playing the instrument they have chosen with correct technique.</p> <p><u>Expression and Interpretation-</u> Playing for the mood of the piece. Playing how the students interpret the song, adding in dynamics, tempo.</p> <p><u>Accuracy and Fluency-</u> Playing the right chords/melody/beat correctly so that the piece flows.</p>	<p><u>Performance- Technique and technical control.</u> Playing the instrument they have chosen with correct technique.</p> <p><u>Expression and Interpretation-</u> Playing for the mood of the piece. Playing how the students interpret the song, adding in dynamics, tempo.</p> <p><u>Accuracy and Fluency-</u> Playing the right chords/melody/beat</p>

			correctly so that the piece flows.
6	The Blues	Samba and Fusion	Solo/Ensemble performances
ASSESSMENT OPPORTUNITIES	<p><u>Performance- Technique and technical control.</u> Playing the instruments with the correct instrumental technique.</p> <p><u>Expression and Interpretation-</u> Enjoying playing the blues, and 'feeling' an improvisation.</p> <p><u>Accuracy and Fluency-</u> Playing the right chords/bass line in the 12 bar blues chord sequence</p> <p><u>Listening and Appraising-</u> Students to understand the genre of the Blues, understanding what instruments would play the blues, what improvisation means, where else the 12 bar blues is used.</p>	<p><u>Performance- Technique and technical control.</u> Playing with correct drumming and beater technique.</p> <p><u>Accuracy and Fluency-</u> Playing the right rhythms with the right cue at the right time.</p>	<p><u>Performance- Technique and technical control.</u> Playing the instruments with the correct instrumental technique.</p>

PHSE

OVERVIEW

PSHE education acknowledges and addresses the changes that learners are experiencing, beginning with transition to secondary school, the challenges of adolescence and their increasing independence. It teaches the skills which will equip them for the opportunities and challenges of life. Pupils are encouraged to manage diverse relationships and the increasing influence of peers and the media. PSHE education allows them to be more confident in addressing the challenges of effective learning and making a full and active contribution to society. At Maiden Erlegh Chiltern Edge there is a focus on drama, with the aim of delivering the majority of the content practically. This allows students to develop key skills such as confidence, team work, empathy and creativity, whilst engaging with important life topics.

ASSESSMENT OBJECTIVES

Assessment of learning:

The objective of each half termly assessment is to identify the progress and development of each students skills and understanding in a variety of areas. These areas differ depending on the unit of work but range from: working successfully within a group, understanding the impact they have on society, creative thinking, understanding the control and decisions they have with regards to friendships, sex, alcohol and drugs, developing personal resilience, knowing how and where to access support for mental health, developing skills to support peers with mental health, bullying, prejudice etc.

ASSESSMENT STRUCTURE

Assessment of Learning

Each half term long unit is delivered alongside a booklet which the students refer to and record in. Within each booklet is a units objectives page, teacher and students read through this together during the first lesson. The students self-assess themselves using the unit objectives, marking their current ability on the table. There are four levels: beginning, developing, secure and mastery. At the end of each unit the students repeat this process with a different coloured pen, to highlight their progress throughout the unit.

Assessment for learning

This is carried out in the following ways: mini plenaries, differentiated questioning and performance observation feedback (both teacher and peer assessed). At the end of each lesson students engage in a plenary task, which highlights their level of understanding and progressing during one single lesson. The majority of PSHE lessons incorporate drama and all students are given an opportunity to perform at the end of each lesson. Students are provided with peer feedback alongside teacher feedback, using 'What went well' and 'Even better if' structure. This provides students with direct feedback to implement next lesson, to ensure continuous personal development.

GROUPINGS

All year groups are taught in mixed sets for PSHE.

Group sizes range from 20-30 depending on total year group size, therefore the number of groups differs between year groups.

HOMEWORK INFORMATION

Students are not directly set tangible homework tasks on show my homework. However, students are often left with questions to consider or small tasks (acts of kindness) to carry out before their next lesson.

Examples of these are: 'From now on, if you encounter someone making a prejudice remark towards someone else, whether it be race, sexuality etc., challenge them on it' or 'Carry out one random act of kindness this week e.g. compliment someone when you notice they are doing something particularly well in class, hold the door open for someone, cook dinner'.

EXTENDED STUDY INFORMATION

Students also engage with PSHE and SMSC subjects within tutor time and assembly time. These programmes run alongside the PSHE curriculum and aim to support and solidify learning.

Students are also encouraged to engage with leaflets, campaign materials and videos to further support their personal development. These are often provided by class teachers or tutors.

ENRICHMENT OPPORTUNITIES

Trips

Students are invited to attend community focused trips. For example: last academic year students went on a trip to meet with the company who are building a new housing development opposite the school.

Students are invited to attend and help at sporting events within local primary schools, to help develop their leadership and personal skills.

Clubs

Student council – students can be voted into the student council by their peers. The student council consists of two students from each form group. The council is run by two year 11's. The students meet in their key stage once every half term and there is a whole school council meeting once every term.

Visiting Speakers

CAMHS sessions provided by outside professionals focusing on resilience.

Authors

Nurse leads sessions on Relationship and Sex Education

'Smashed Live' – Educational performance focused on the risks of underage drinking

'Under my Skin' – Educational performance based on self-harm

EQUIPMENT NEEDED

Projector

Ability to show videos

Sound system

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

Engage in discussions focused on topics that students are learning about within their PSHE lessons.

Parents are welcome to attend the CAMHS evening sessions at the school. These are run by outside professionals and each session has a specific focus. The aim of these sessions is to provide parents with strategies to support their children in specific situations, such as resilience, school refusing and self-harm.

PHYSICAL EDUCATION

OVERVIEW

Chiltern Edge Physical Education curriculum is designed to inspire and engage all students and is devoted in allowing students to unlock their potential through sport, exercise and physical activity. At Chiltern Edge we have developed a reputation for supporting and encouraging all of our students to participate consistently and enthusiastically during curriculum time and establish healthy active lifestyles outside the taught curriculum. All students have 2 lessons per week and activities change every half term and cover a wide variety of sports and activities.

ASSESSMENT OBJECTIVES

Students are graded using the GCSE criteria for each activity. They build up the levels from 0-10.

ASSESSMENT STRUCTURE

Students will undertake a practical assessment at the end of every half term. Performance and capabilities are judged against performance indicators. Students are also expected to self-assess their progress in a written format as a preparation for GCSE requirements and to develop the use of technical language.

GROUPINGS

Single sex mixed ability groups. This is dependent upon the timetable.

HOMEWORK INFORMATION

Students will begin to learn and understand key terminology from the GCSE PE specification and these will be set as homework on a termly basis.

EXTENDED STUDY INFORMATION

Reading around the subject

ENRICHMENT OPPORTUNITIES

Students are encouraged to participate in sporting clubs as extra-curricular activities both at lunch time and after school. This includes fixtures and tournaments which take place outside the school day. The extra-curricular timetable can be found on the school website and within the PE department.

EQUIPMENT NEEDED

Students require the following equipment over the course of the year – all named.

- blue polo shirt
- blue contact shirt – boys only
- blue shorts/tracksuit bottoms
- blue football/rugby socks
- White sport socks
- Sports trainers (not canvas shoes)
- Football boots
- Shin pads
- Gum shield* – recommended for contact rugby/hockey

Students should change into PE kit for every lesson (even when excused) and ensure that a note is provided in the event of needing to be excused.

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

Encourage your child to lead an active and healthy lifestyle by attending sports clubs both within school and outside of school.

Support your child to make sure they have the correct kit for every PE lesson.

RELIGIOUS STUDIES

OVERVIEW

Religious education is essential to ensure students are respectful and understanding of others' views. The KS3 course considers ethical questions affecting individuals and society, as well as critically engaging with religious responses to the issues raised. A range of religious beliefs are explored, including Christianity, Islam, Judaism, Hinduism, Sikhism and Buddhism on a variety of issues, as well as an in-depth exploration of their faith and beliefs. Humanist views and responses to philosophical questions are also debated throughout the course.

ASSESSMENT OBJECTIVES

Students are assessed based on their knowledge and understanding of different belief systems, as well as their ability to evaluate the viewpoints.

ASSESSMENT STRUCTURE

The assessment structure varies but can include:

- Responses to a statement which students evaluate from different perspectives
- A range of questions that assess students' knowledge and ability to evaluate different viewpoints
- A diary entry to show awareness of the impact different religions have on people's lives
- An essay style assessment, where a range of views on one issue are explored

GROUPINGS

RE at KS3 is taught in mixed ability groups. One hour per week

HOMEWORK INFORMATION

Homework is set once a fortnight and should take around 30 minutes.

EXTENDED STUDY INFORMATION

- Guide them towards developing their understanding of religious issues
- Encourage them to research and find out about religious character
- Research and reflect on contemporary issues linked to religion in the modern world
- Useful websites: <http://www.bbc.co.uk/> <http://www.reonline.org.uk/>
- BBC Bitesize: <http://www.bbc.co.uk/education/subjects/zh3rkqt>

ENRICHMENT OPPORTUNITIES

For KS3 students there will be an opportunity to attend a club and participate in a variety of activities.

EQUIPMENT NEEDED

A pencil, ruler and writing pens (green for 'improvement work') are essential in every RE lesson. It is also useful to have the following items: sharpener, eraser, colouring pencils, glue stick, calculator, scissors, and highlighter.

CONTACTS / ANY FURTHER INFORMATION

SCIENCE

OVERVIEW

The Foundation Science course has been developed to ensure students have a good grounding in key Science theory so that they are well placed to tackle the rigours of Combined or Triple Science at GCSE. In today's world where Science knowledge is crucial I believe that a solid foundation in all 3 Science disciplines is very important. The UK government estimate that for current Secondary School aged children, by the time they reach the workplace 53% of all new careers will be Science based.

ASSESSMENT OBJECTIVES

Assessment objectives will broadly follow the GCSE AOs to prepare students for the technical language and expectations of depth of understanding required for success:

AO1: Demonstrate knowledge and understanding of scientific ideas, scientific techniques and procedures.

AO2: Apply knowledge and understanding of scientific ideas, scientific enquiry, techniques and procedures.

AO3: Analyse information and ideas to interpret/evaluate, make judgements and draw conclusions and develop and improve experimental procedures.

ASSESSMENT STRUCTURE

Students will be assessed in each unit on:

- the development of their knowledge and understanding
- mathematical skills
- analysis skills
- competency in practical work

This will be achieved through mini quizzes, end of unit assessments and homework tasks. The use of teacher, peer and self assessment will be utilised throughout each unit.

GROUPINGS

In Y7 and Y8 students are taught in mixed ability groups.

HOMEWORK INFORMATION

Homework is set once a week and should last around 30 minutes.

This might include:

- research tasks
- design tasks
- mastery questions
- revision for assessments.

EXTENDED STUDY INFORMATION

Please do watch out for optional homework on Show My Homework. These optional homework tasks are often competitions run by different companies or organisations nationally. We have a history of students winning national science competitions and sometimes even cash prizes!

ENRICHMENT OPPORTUNITIES

STEM and Science club opportunities.

Enrichment visits to local Science-based employers (including laboratories)

Reading Astronomy Group workshop to support units on Space and Scientific Discovery.

EQUIPMENT NEEDED

Usual school equipment required including scientific calculator.

Students with long hair will be required to tie it back during practical work.

CONTACTS / ANY FURTHER INFORMATION

Curriculum Leader: Ms K Hardman

TERM	COURSE CONTENT: Knowledge and skills	
	Year 7	Year 8
1	Introduction to Science incl. Health & Safety & practical skills	BIOLOGY From molecule to body D.N.A. and Evolution
2	CHEMISTRY Particles & Elements, Pure and Impure substances	BIOLOGY Mammalian organ systems and Adaptations
3	CHEMISTRY Chemical reactions and energetics	CHEMISTRY Mining, materials and recycling
4	CHEMISTRY/PHYSICS Energy in Systems Electricity	CHEMISTRY/BIOLOGY Geology, the atmosphere and climate change, interdependence
5	BIOLOGY Cells, Tissues and Organs	PHYSICS —Space Space and the Universe Waves and Magnetism Forces
6	BIOLOGY Respiration & Photosynthesis	PHYSICS —Space Extra-terrestrial life Radiation
ASSESSMENT OPPORTUNITIES	In each unit students will be assessed on the development of their knowledge and understanding, mathematical skills, analysis skills and their competency in practical work.	In each unit students will be assessed on the development of their knowledge and understanding, mathematical skills, analysis skills and their competency in practical work.

TECHNOLOGY

OVERVIEW

Design and Technology is important in all areas of the modern world, from railway stations to space stations, adverts to inventions and yogurt pots to yachts. Without Design and Technology, human beings would find every task a great deal more difficult. The first computers required the art of invention and designers strive to create the next new and exciting thing. Design and Technology combines skill, talent and creativity and allows pupils to work in a practical way to problem solve, innovate and change the way we live.

This subject offers an excellent pathway to many careers. These range from direct pathways such as design, fashion, manufacturing and production to other areas such as retail, education, training, sales and marketing. There are in excess of 100 different career options that directly relate to Design and Technology, and the subject has a high employability rating.

Students will study for 3 terms in each year in rotation with Food Technology.

ASSESSMENT OBJECTIVES

AO1: Identify, investigate and outline design possibilities to address needs and wants.

AO2: Design and make prototypes that are fit for purpose.

AO3: Analyse and evaluate:

- design decisions and outcomes, including for prototypes made by themselves and others.
- wider issues in design and technology.

AO4: Demonstrate and apply knowledge and understanding of:

- technical principles.
- designing and making principles.

GROUPINGS

Mixed ability no more the 20.

HOMEWORK INFORMATION

Homework is set approximately every fortnight. On occasion a longer, project based task might be set over a longer time frame.

EXTENDED STUDY INFORMATION

It is recommended that pupils read about prominent designers, such as Ettore Sottsass, Vivienne Westwood, Harry Beck and Charles Rennie Mackintosh (amongst others).

Further reading includes:

Alessi: Art and Poetry. (Cutting Edge) ISBN 13: 9780823011452

Childdata: The Handbook of Child Measurements and Capabilities: Data for Design Safety ISBN 0952257114 or 9780952257110

Design modelling: visualising ideas in 2D and 3D ISBN 13: 9780340663394

Designing the 21st century ISBN 13: 9783822848029

Icons of design: the 20th Century ISBN 13: 9783791331737

Memphis ISBN 13: 9780500019009

ENRICHMENT OPPORTUNITIES

There will be opportunities for DT clubs, trips and visits within D&T.

EQUIPMENT NEEDED

Drawing equipment such as: set square, templates, marker pens, coloured pencils, ruler,

HOW CAN PARENTS SUPPORT THEIR CHILDREN?

Free CAD software is available online.

Visits to design museums, galleries and exhibitions help with the course content. Access to YouTube videos on production processes often help with knowledge. Any use of tools, equipment and workshops are helpful but not essential.

TERM	COURSE CONTENT: Knowledge and skills		
	Year 7	Year 8	Year 9
1	Photo Stand Students will look at a range of techniques and designers, using wood and metal to create a photo stand.	Pewter Medallion Students will look develop a range of drawing and design techniques and design a pewter cast piece.	Clock Students will explore a range of designers and graphic rendering techniques in designing their clock using acrylic.
2	Students will complete and evaluate their Photo Stand. Students begin to look at a range of wood work skills.	Students will finish their pewter casting and evaluation. Students will begin to research into desk lamp design.	Students will finish their clock and evaluate their work. Students will study and reflect on modern and historical architecture design.
3	Wooden Knot Students will continue their exploration of wood creating joints to make a wooden knot.	Desk Lamp Students will develop their designs into creating a desk lamp.	Architectural Model Students will create their own personal response in the form of an architectural model
ASSESSMENT OPPORTUNITIES	For each project students will be assessed on their creative design process, practical skill development, their final piece as well as their ability to analyse and evaluate their own performance. Each unit will also develop the understanding of Health and Safety in the workshop and students will be assessed on their ability to work safely with tools.
