

## Easter Fun 2020 is going ahead!

Easter Fun, the holiday activity programme for families, **WILL GO AHEAD**. 15 days of activities, games, challenges, investigation and crafts is being organised by Active Leaders, funded by the National Lottery, starting on Monday 6<sup>th</sup> April.

All activities have been adapted so they can take place indoors, in gardens and within families. Craft activities encourage the re-use of everyday items.

This is all timed to coincide with the start of most state school holidays, offering a daily programme of activities in one place, which it is hoped will make it easier for families to continue adhering to the Government's social distancing guidelines.

The activity schedule and all resource cards will be available the day before each activity day at: <https://www.activeleaders.co.uk/daily-activities> and on the Active Leader Facebook page.

The National Lottery Community Fund has agreed to this adaptation of the 4 days of Easter Fun which was to have taken place outdoors in Sonning Common.

Families can look forward to 5-a-day challenges, active games, building games equipment, forts and dens from cardboard boxes, making peacocks, filling tiny boxes, making chicks from clothes pegs and taking part in Famolympics.

Active Leaders' daily games and challenges have now reached over 10 countries worldwide and attracted audiences of all ages and abilities. Recipes for Fun offering a bespoke games making service have been requested from those who have very little equipment and space.

Philip Collings from Sonning Common Parish Council said: "We wanted to do something to help everyone fight this virus, without having to leave their homes. Teachers and schools have made an extraordinary effort to keep students busy in the last 2 weeks, but they deserve some time away from planning. We hope our ideas and activities will provide fresh inspiration for everyone and fun for the whole family. We want to thank all those who are working so hard to keep us safe."
