Dear Parent/Guardian

BeReady – A Learning Platform

As part of our ongoing efforts to offer the best remote learning resources we can, I'm writing to let you know that we have just signed up to use 'BeReady'. This is a free online platform that contains a wide range of learning resources, online lessons and a catalogue of accredited short courses. The platform also provides users with a content that will help them develop life skills and assist well-being.

BeReady told us, "This is a fantastic new platform designed to make sure all our students are given the opportunity to fulfil their true potential. The BeReady platform helps prepare students for their next step in life, whether they decide to move into the world of work, or onto university. Students who spend even just 10 minutes a week learning will gain the skills to truly get ahead." We have been very impressed by what is offered and feel it will add to our current remote learning offer and indeed our future careers and PSHE provision.

We want everyone to have access to these resources so your child has been automatically enrolled onto the platform by the school, and will be sent their personal login details over the course of next week. This will enable your child to track their personal progress, set targets and access their certificates. We will also be posting some support materials through Show My Homework that provide guidance on what is on offer and how to access the platform and the resources. Teachers may set work using some of the online resources, although as I have previously stated, we use all such resources to support but not replace our provision.

To make sure they get the best out of this fantastic free resource, we would recommend that you log in with your child and take a look around to see what's available.

If you have any queries about BeReady, then please do not hesitate to contact me.

Yours faithfully

Richard Hawthorne
Deputy Headteacher
