7 September 2020

Dear parent/guardian

At Maiden Erlegh Chiltern Edge homework plays an important part in our curriculum allowing students to consolidate learning in the classroom and prepare for upcoming tasks. Details of how much homework students can expect to receive along with examples of the type of task set can be found on the curriculum pages of our website.

To help students and parents keep track of homework we use an online platform / app called Show My Homework to set homework, provide information about the task, share specific resources and confirm deadline information. We also use it to share year group or school wide messages and reminders via the noticeboard function.

Today your son/daughter has been given their personalised access codes to activate their accounts. I would encourage students to get this set up this evening when they return from school. Students are free to set their account to a personal or school email address. The app is freely available from Apple or Android app stores.

One feature of Show My Homework is the opportunity for parents to also be linked to accounts. This allows you to see the amount of homework being set and support your son/daughter into establishing good routines for completing it to the best of their ability. Your access codes can be found on the sheet your son/daughter was issued today. Again, I would encourage you to sign up!

You can read more about the features of Show My Homework via their website:  
[www.satchelone.com](http://www.satchelone.com)

Should you have any issues in setting up your accounts please do contact your son/daughter's form tutor in the first instance.

Yours

Miss E Bliss  
Deputy Headteacher
